

MOVING WALLS

Product data sheets

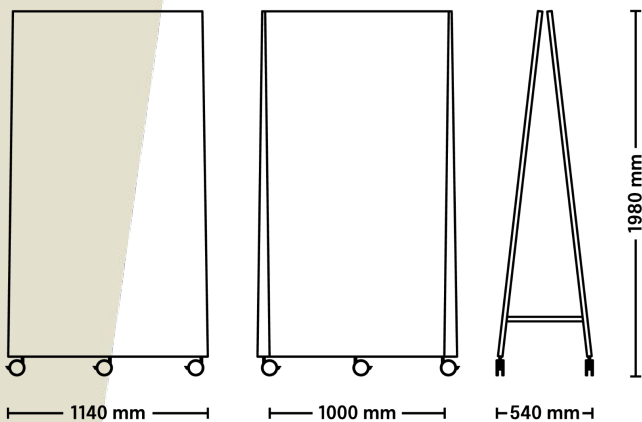

The Moving Wall

Moving Wall The high-end whiteboard

The magnetic, writeable wall Moving Wall is a tool for agile working and mobile space making. In contrast to the classic whiteboard, the high-end, mobile wall allows innovative collaboration methods and is thus an essential tool for future-oriented work processes.

Conceptualised as an individual element, the tool is absolutely modular and can be strung together as often as desired in a straight line or as a circular arc - without interrupting the flow of writing. The easy assembly facilitates a speedy transport, also making the Moving Wall a great mobile room divider as well as a helpful storage facility.

DIMENSIONS

Product Information

DIMENSIONS (W x D x H)

1140 x 520 x 1980 mm
44.9 x 20.45 x 78 in

MATERIALS

Enameled surface

WEIGHT

42 kg / 92.6 lbs

COLOUR

White

DESIGN

Jörg Boner

MADE

in Switzerland

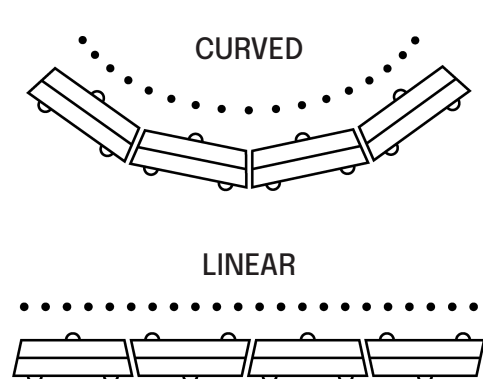

DELIVERY INFORMATION

Delivery time
4 - 6 weeks after placing order

ASSEMBLY

Assembled, single package

ALIGNMENT

Connect Moving Walls

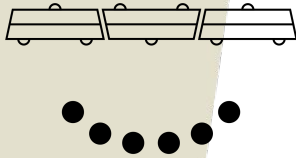

High quality, durable wheels

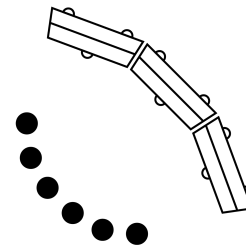

Additional storage space in the Moving Walls

Moving Wall – Workshop Settings

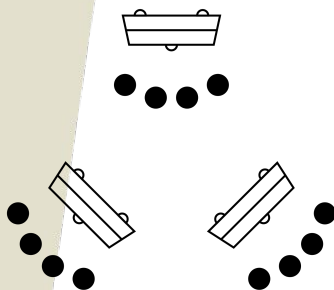

Linear / Kickoff

This is a possible set-up for the presentation of interim results, the discussion of sample solutions or prototypes. It offers a great environment for feedback modules. These feedbacks form the basis to further optimize solutions at specific stages in the creative work process.

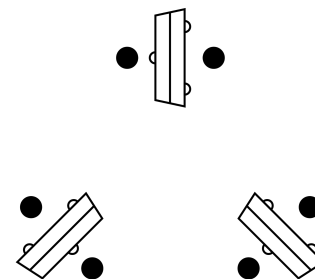

Curved / Plenum

This set-up facilitates team building and a sense of togetherness. Ideal for kick-off meetings or for presenting project results. The Moving Walls are arranged as an arc to form a plenary set-up. The aim is to visualize project results by assembling all team members in one place.

Teamwork / Break Out

Teams can work tirelessly together or separately on new projects, prototypes or product samples. The primary goal is interactive working to establish new ideas or business models. Spacious writeable and pinnable surfaces offer ample workspace and make the results visible for the involved team members.

Brainwriting

This set-up is designed to unleash the full potential of participants and ensure the optimal use of existing resources. The right interaction of agile working tools, workshop designs and methods are required to achieve the best results and maximum productivity.

Large writeable surfaces and pinboards provide abundant work areas

Bringing participants together to visualize results for everyone's benefit
